With Forein Cox

My son and I went fishing on several different occasions recently. We didn't catch many fish, but did enjoy the "getting ready." On one of our afternoon trips, the wind was really blowing and I was having trouble controlling the direction of our boat. Once (and only once) I was fussing at him about us missing a stump we were planning to use as a tie-down, when he said, "Daddy, I am not making the wind blow." Needless to say, he was right, and there was a bit of embarrassment on my part for fussing at him when really the wind was tic to point out, however, that tinue to maintain relations what was bothering me. Editorial

Why do we worry about the passing of a lifetime or a death when many of us daily throw our lives away piece by piece? How much time do we spend a day in absolute waste?

Think of the study halls we sit in, surrounded by interesting magazines, newspapers and books, as well as our own textbooks, where we do nothing but wait for the bell to ring.

In a full school year we spend about 175 hours in study hall. Think what we could be learning and how our minds could be growing if we spent those 175 hours, or even just a part of them, reading or of the Year thinking about something we don't know about or want to learn more about.

Prom

The Juniors had a swell time this year on the Jr.-Sr. Prom. Everyone had his own share of work. The Jr. Class was divided into three comittees: Food, Band and the Decorating Committees. As that special occasion was nearing, invitations were sent to the Superintendents of Education, faculty, trustees and the Seniors of 1975.

The prom was held in the allroom of a Troy inn. Pictures were taken, and then all important people attending were announced. Following this we had the lead-off which was centered around the "Colour My World With Love" played by Clay-bank, the band. Officers paricipating in the lead-off were: President - Paul Nelson; Sr. President - Richard Adair; Jr. Vice-President - Cheryl Campbell; Sr. Vice-President - Terri Wilson; Jr. Secretary - Debra Jones and Sr. Secretary - Dorothy Nunn.

Following lead-off, refreshments, were served, compliments of a soft drink ompany. Everyone had a fantastic time until the midnight hour.

NON SUBSCRIBERS...

A man who was too cheap to subscribe to his hometown newspaper sent his little boy to borrow his neighbor's copy. In his haste the boy ran over an \$80 hive of bees and in ten minutes he looked like a warty squash. His father ran to his assistance, and failing to notice the barbed wire fence, ran into that, cutting a hole into his anatomy as well as ruining a pair of \$10 slacks. The old cow took advantage of the hole in the fence and killed herself eating green corn. Hearing a racket, the wife ran out, upset a four gallon churn of cream into a basket of chicks, drowning the whole batch. In her haste she dropped a \$135 set of false teeth, which the family dog buried thinking it was a new type of bone. The baby, having been left alone, crawled through the spilled cream and into the parlor ruining a \$250 carpet. During the excitement the oldest daughter ran away with the hired man, a stray dog broke up 11 setting hens, the calves got out and chewed the tails off four fine shirts on the clothes line, and the cat had a batch of kittens. All this just to save 10c. And in this case, the poor guy never did get to read that edition.
